

MAKE YOUR MARK

REINVENTION
BUILDING BOLD AND BRAVE ORGANISATIONS

**FUTURE LEADERS
PROGRAM**

DO YOU HAVE THE X-FACTOR?

All leaders today are faced with the reality of keeping up with the dizzying speed and unpredictability of an ever-changing world. For high potentials moving into new and increasingly complex leadership roles is an additional challenge and organisations must be able to develop the skills and competencies of their top talent to keep pace with changing demands to become future ready.

Our program is designed to work with high potential leaders to develop their X-factors, help them get on the fast track and stay there. You will leave with inspired thinking, fresh perspective and the leadership skills be a successful catalyst for personal and organisational change with the future in mind.

PROGRAM DETAILS

Pre-workshop

- Completion of an on-line Leadership and Business Agility assessment to serve as a baseline measure to guide your personal development and readiness to lead in the digital age

Workshop

- Learn tools and techniques to enhance self-awareness and become more adaptable
- Learn conflict resolution, negotiation skills and how to strategically influence others
- Learn techniques to release creative potential and think like a disruptor
- Manual provided

Post-workshop

- Option for continued one-on-one coaching to reinforce your personal resources

LEARNING OUTCOMES

- Learn about a digital operating context and how it has redefined leadership requirements
- Build a strategic game plan on how to respond to your own unique operating context - disruption may be necessary!
- Understand, develop and build adaptive personal leadership capability in yourself and others
- Learn how to lead your teams, stakeholders and the organisation with optimal impact
- Build your influencing skills to achieve both professional and personal success
- Learn how to embrace tension and navigate your way gracefully through conflict toward win-win resolve
- Unlock your creative potential and develop entrepreneurial and innovative thinking
- Learn tools and techniques to work in a more agile way that creates greater customer value
- Practice deep reflection, develop learning agility and the ability to continually grow and evolve
